FRIDAY, MAY 21

The boycotting circulars are the gospel of cattlemen and capitalists, and therefore should be suppressed.

It has been suggested, and with a good deal of force, that Mr. Cleveland should invite the Rev. Dr. Burdett to perform the ceremony. Had it not been for the doctor's three life Mr. Cleveland would never have been president.

There is queer virtue in the New York Times. It sold its editorial space last winter to the Pan-American for \$300 a column—the only paper in New York that would do so mean a thing—but considered itself too virtuous to support Mr. Blaine.

Down south the politicians haven't much faith in Mr. Cleveland's democracy, and the Maccus, (Ga.) Telegraph, democratic, makes this suggestive remark: "It is now positively stated that Miss Polson is a democrat. We are glad of this. It is an encouraging sign to see a democrat put in office now and then."

One of the most shocking tragedies we have known called to note for many months is the killing of Mrs. George H. Pendleton, whose husband is minister to Germany. Mrs. Pendleton and her daughter were riding in Central Park, when the horse became frightened, throwing them both from the carriage, and Mrs. Pendleton was instantly killed. Her sudden and shocking death will be a terrible blow to Mr. Pendleton, who is now in Berlin. Mrs. Pendleton was 61 years old, and was married in 1846. She was Miss Alice Key, daughter of Francis Scott Key, the author of "The Star-Spangled Banner," and sister of Philip Barton Key, who was killed by General Pickens. She was the niece of Chief Justice Roger B. Taney. The family have five houses in Washington and Cincinnati and a cottage in Newport.

Judge Mallory's grand jury should hasten to indict Robert Schilling, the organizer of lodges of Knights of Labor. He is not only a blabbermouth, but he is a communist and an incendiary and a promoter of discontent among workmen. He is a leader of the Knights of Labor in Milwaukee and a defender of mob law. He publishes a paper, and he vigorously attacks the militia for interfering with the mob movement in Milwaukee. He says: "The thing was unjustifiable and cruel—I was cowardly, premeditated murder." He then goes on to say "The most guilty man is the old know-nothing Jerry Ryck, by the grace of the ignorant people the governor of Wisconsin, who gave the order, to shoot to kill." The attention of the grand jury has been called to Schilling's defense of mob violence, and it is possible that he may be indicted. If the Knights of Labor have any regard for the moral standing of their order or any respect for common decency, they should get rid of Schilling, and not allow him to disgrace their organization by attempting to put it on a level with that of anarchists and communists.

A SECOND VICE PRESIDENT.

Notwithstanding the presidential succession bill, passed by the present congress early in the session, the house committee on the electoral count has reported a bill proposing a constitutional amendment creating the office of a second vice president of the United States. The bill provides that in case of the removal from office, death, resignation or constitutional disability both of the president and vice president, the office of president shall devolve upon the second vice president, who shall be voted for in district electoral ballots at the same time and in like manner and for the same term as the president and vice president. In case of the removal of the vice president from office, or his death, resignation or constitutional disability or when the vice president shall be the president of the senate and be absent at the time of the election of the vice president, the second vice president shall exercise the office of president and the second vice president shall be absent from the senate, or when the second vice president shall exercise the office of president, the second vice president shall exercise the office of president. There does not seem to be any good reason why this bill should become a law. The presidential succession bill introduced by Senator Hoar, and passed in December, seems to make all necessary provisions for a wise succession of the presidency. It is not likely that the bill will become a law.

BRAGG AND DELANEY.

General Edward S. Bragg, congressman from the Second district of this state, is always in trouble. When it is not financial difficulty that compasses him, then it is a bitter warfare with the members of his own party and who live in the same district. It costs him more trouble to keep his seat in congress than it is worth. He is sharp in many ways, has the ability to make his influence felt in the politics of the state, but being fiery, impatient, strove, and many times unaccountable in his conduct towards his political friends, and lacking that high moral courage and manly independence that should be the companions of all men in high official position, he is never out of trouble and is constantly forced to make a sharp for his political existence.

The hottest congressional contest that ever occurred in this state was that in General Bragg's district four years ago, when, through the influence of A. K. Delaney, the fiery little congressman was beaten for re-election, D. H. Sumner

THE STATE OF THE CASE.

VIEW IN WASHINGTON ON THE FISHERY UNPLEASANTNESS.

Monday, May 21.—The capture of the Gloucester fishing schooner David Adams in Digby Bay by the Demolition steamer Lamoureaux, which has since towed her to St. John, is likely to bring the fishery problem to a head. The Adams is a small schooner, and is the property of the Gloucester fishing fleet. She was captured while fishing in Digby Bay, and was towed to St. John by the Demolition steamer Lamoureaux. PADGETT'S AND CARROLLS.

Using the Playful Shotgun as Arbitrator—Two of the Parties Develop Lead Mines in Each Other—A Massachusetts Father's Atrocious Deed—A Father's Sentence.

CANTON, Mass., May 21.—News has been received from Grand Saline, Van Zandt county, of a tragic affair. For several months a feud existed between the Padgetts and the Carrolls, two families residing five miles northeast of Grand Saline. It originated in the Padgetts accusing J. M. Carroll of stealing eggs. The quarrel continued until the father, sitting work located, embroiled. Arrests and counter-arrests were made of parties on either side on all-davits sworn out by adherents of the opposing faction. And every month they have been in attendance upon the courts at Grand Saline. In court Wednesday, after the cases had been disposed of, J. M. Carroll went to W. J. Padgett, father of Robert and James Padgett, and said to him: "I would like to see you at my place, and we will have a talk over the matter." Carroll went to the place, and the two men, Padgett and Carroll, moved off to their homes. Carroll went to the place, and the two men, Padgett and Carroll, moved off to their homes.

THE PERSUASIVE WINCHESTER.

Likely To Be Brought Into Action at Janesville.

BRAINSFORD, Pa., May 21.—At 11:30 o'clock Thursday night a special train left Brainsford for Janesville, Wis., carrying twenty-five employees of the Winchester & Pittsburg railroad, armed with Winchester rifles. At Brainsford they were met by a large number of men, some of whom were armed with rifles. The men employed in these mines are on strike, and the Winchester & Pittsburg railroad is the only one that carries coal to the mines. TOUCH AND TRADE PERMITS

Have Nothing to Do with the Case—Portland People Want Warrant—Boston Letter.

PORTLAND, Me., May 21.—Col. Lewis H. Smith, first deputy collector, says the object of the "touch and trade" permits is to protect the United States revenue. He says that the vessel, taking them out, does not undertake other business than that in which she professes to engage. It is for the protection of the customs service and the protection of the revenue. Briefs.

—Another party of Janesville people are spending the day at Indian Ford.
—Meeting at Town Hall, Harmony, at 8 o'clock p. m. Sunday next. Addresses by J. T. Wright and James Sutherland of this city.

—Rock River Encampment No. 3, I. O. O. F., assemble in regular semi-monthly session this evening at Odd Fellows hall.
—People's Lodge No. 450, Independent Order of Good Templars, assemble in regular weekly session this evening—lodge room in the Court Street M. E. church block.

—Olive Branch Lodge No. 35, Ancient Order of United Workmen, hold their semi-monthly meeting this evening—lodge room in the Lappin block, East Milwaukee street.

—The Guards are now trying to raise money to purchase enough new uniforms to thoroughly equip the company. If the uniforms are obtained they will be of the same pattern as those now in use but nothing will be done until after the July inspection.

—Henry Siebers, factory inspector, connected with the Wisconsin bureau of labor and industrial statistics, of Milwaukee, is in the city this afternoon, taking steps to compel some of our hotel proprietors to comply with the law requiring the putting up of fire escapes.

—Two stars have been engaged to appear at the Myers opera house in the near future. One is James Owen O'Connor, the tragedian, who will be here May 21st, and will probably appear in Othello. The other is Mattie Vickers, the popular scabrette, who is to play here on June 8th.

—The Rescue hook and ladder company, at a special meeting held last evening, voted to turn out as a company and participate in the ceremonies of Decoration Day. The entire fire department will undoubtedly turn out on that day and aid the G. A. R. veterans in a due observance of the day.

—Although it was never decided by the executive board, the Lakeside polo team are to acknowledge champions of Wisconsin and should have those badges which are held by Valerius, of Janesville. —Janesville Journal. No one outside of Rescue hold the records of the Journal.

—What has the Recorder against Prof. Keyes, of our city schools? That enterprising (?) journal fails to note the professor's reelection, which took place on Wednesday evening, and by unanimous vote of the board. If Jen't possible the Recorder didn't know of the fact, as they had a copy of the Gazette in their office.

—Early planted potatoes are not yet visible to the naked eye, but the rows are easily distinguished by a red streak of well preserved potato bugs, patiently waiting for the first appearance of their favorite diet. Druggists will do well to take a note of this, as indicative of the time when said walks should be decorated with highly ornamented chalk marked signs announcing the favorite resort of "paris green."

—The Recorder this morning publishes another installment of matter signed "Tax-Payer" concerning the proceedings of the "executive session" of school commissioners. "Tax-Payer" was evidently present at the meeting, as he appears to speak from personal knowledge. It now only remains for the Recorder to inform its readers of the re-election of Professor Keyes, and then it will have completed the publication of the proceedings of that meeting.

—The United States man-of-war Nipsio Montevideo March 7th for Hampton Roads, is now over due several weeks, nothing having been heard of the vessel since leaving port, and great anxiety is felt at Washington, fearing that the vessel with all on board have been lost. Paymaster Henry T. Wright, of this city, is one of the officers on board. It is hoped that the vessel is yet safe and will soon be heard from. Our telegraph column contains a list of officers in charge of the over due warrior.

—Several other parts of the city have been visited by plant thieves during the past few nights. Marshal Hogan is now looking up evidence against some of the parties suspected, and sometime when they least expect it, their time will come to the Judge Patton all about how they have lots of sleep walking. It might be just as well for them to be ready with an interesting story of this kind, for the season for repentance is almost up, and none of the "thirst collectors" seem to have taken advantage of it.

—Everyone knows of Mr. Lee's poster of France, who is now famous on account of his discoveries regarding inoculation for hydrophobia. Realizing that a correct portrait of this eminent physician would be valued highly by those connected with the medical profession, Parke, Davis & Co., the wholesale drug firm, of Detroit, has sent out a very excellent engraving to their trade and professional friends. Copies have also been sent to the press of the country, and we can say that the picture is a work of art that can not fail to be acceptable.

—This morning about eight o'clock Mr. J. H. Wheeler was driving down North Main street, his horse became frightened, and started to run. Mr. Wheeler tried to check him, but did not succeed, and the frightened animal, kicking himself free from the buggy, darted into French's second hand store on Main street. He ran the full length of the store before being stopped, but strangely enough, did no damage whatever to any of the furniture or other goods piled up around him. A pair of broken thills and a battered dash board are the only other things that remain to indicate that a runaway had occurred.

—Mr. D. W. Watt, who is now out with Forepaugh's show, recently received a present from one of the performers that he values very highly. It is a mechanical cigar holder, on top of which stands a ticket wagon beautifully carved, and an exact life simile in miniature of the one belonging to the show. A crowd is pushing and struggling around the open window where David himself is selling tickets, and on the roof of the wagon sits a policeman watching to see that no pickpockets get into the crowd. The holder is a remarkable piece of carving, and is well worth examining. It is now at Chase's cigar store, where Mr.

Watt allowed it to be placed on exhibition for a few days.

—Yesterday was lake-ly day, and on the lake side of every house could be found the creatures over a foot high, in heaps—or heaps over a foot high, of the creatures, for something. There were heaps of them, at any rate. They are short lived beggars, thank goodness. They hatch out on the surface of the water, or on the shores, or somewhere, by myriads, and fly off before they get tight. They go pell-mell against the houses, poor things—the flies, of course—and are dashed to death. "Then they see how narrow it was for them to start off on a "hook" of that kind before they knew the life of the country. Just think of it. What's the sense in being a fly and only live a minute or two. But there are entomologists who claim that the average life of a lake fly seems to be the creature about the same length as life is to the Milwaukee anarchist, and fully as pleasant. —Milwaukee Democrat, May 20th.

—The family of Mr. Paul, in the town of Milton, is sadly afflicted with a malignant type of diphtheria, brought to their home by a hired man. Wednesday one of their children died from the effects of this disease; yesterday morning another child died, two more children are very low and not expected to survive, while the father and mother, as also the hired man, are down with the same disease. Last evening, at the meeting of the Odd Fellows lodge at Milton, these facts were reported to the lodge, also that Mr. Paul, owing to this terrible affliction, was behind the season in putting in his crops. Mr. Paul is not a member of the lodge, yet it was proposed that the lodge ask for volunteers to assist in putting in Mr. Paul's grain, and six members volunteered with their teams and machines, to report at Mr. Paul's farm on Monday next, and finish up his seedling and planting. Deeds speak louder than words.

—The indications are that this will be a great year for apples. Last evening Mr. A. B. Barnard, of the fourth ward, and Mr. P. S. Fenton, of the second ward, were showing some extra fine apple blossoms, of very large size. These blossoms were snow white, and in size were as large as the white rose, which they resembled. One of these blossoms was two and a half inches in diameter, and very regular in shape. This morning Superintendent of the Poor, S. B. Kenyon, who resides on Milton avenue, came down to his office and reported that yesterday afternoon, when grafting one of his crab apple trees, which was then in full bloom, he found two full grown apples in a cluster of blossoms near the top of the tree. So elated was Mr. Kenyon at his success in horticulture, that he summoned several of his neighbors to witness the fact, before he harvested his crop. He is now exhibiting the apples to his friends, as evidence that he has the earliest variety in this section of country.

DIAMOND QUEST.

Settling From the Various Ball Grounds.

Lyman Wilbur has been engaged to play short stop with the Minneapolis club. Carry's napping at Chicago is provoking much dissatisfaction. In fact several of the League and Association umpires are not being well received. Association Umpire Ben Young has resigned, and Jimmy Clinton, who last year played in one treble for Cincinnati, has been appointed to take his place. Young will return to the Southern League, where he umpired last year and gave the best of satisfaction, and where he is again wanted badly. His brief career as an association umpire was not a success.

A strong club has been organized at Bay View, several professionals being among the players. McGaw, of polo fame covers left field, and is said to be an excellent player. Masgrove and Sweeney, who were considered among the best amateur players in the country have been employed.

One day recently, the Milwaukee base ball club did not play a game. It rained that day.

It is stated that the Washingtons have offered Newark one thousand dollars each for Smith the left hand pitcher and Daly the rising young catcher and that the offer has been accepted.

The National League has been organized just two years, and in that time Anson has played in 792 games, in which he has been at bat 3,353 times, and made 1,163 base hits. He leads the list.

Eaterbrook may be a candidate, but he is at the same time a gentleman. In a Boston New York game he collided at a plate with Daily. "If I punch your head," said Daily, "that wouldn't be to your credit." was Eaterbrook's only response as he walked to the bench.

One inning of a recent game in Atlanta presented a curious feature. Atlanta had three men to bat. Each one of them was given his base on balls, and each one thrown out while stealing bases. There was not a ball struck in the inning, and yet every base was filled and no run was scored.

Some 200 New Yorkers went to Philadelphia to witness the opening game. They took with them a bunch of new brooms, which they tucked to the poets of the grand stand. They meekly but gracefully presented the brooms to the Philadelphia players at the conclusion of the game.

The Tuler Collegiate Base Ball Association this year consists of Yale, Harvard, Princeton, Amherst, Williams and Brown. Harvard seems likely to take the lead, although Yale and Princeton will make hard fights. The latter club's only weak point is behind the bat, and it is hoped that this will be remedied.

The Weather.

At seven o'clock this morning the thermometer indicated 58 degrees above zero. Partly cloudy, with south wind. At one o'clock p. m. the register was 57 degrees above zero. Partly cloudy with south west wind. For the corresponding hours one year ago the register was 63 and 77 degrees above zero.

PERSONAL.

—Miss Sarah Hickley is visiting friends in Deloit for a few days.
—Mrs. Fred A. Quinn, who has been visiting in this city for some time, returned to her home in Elgin this afternoon.

ALL RIGHT IN THEORY.

But Perhaps a Little Out of Practice.

There is a young man in one of the west side clothing stores who has always laid claim to being an angler of much experience. His fish stories were something phenomenal, and ranged in size from the kind that could be believed by almost anyone with a little practice, to the pattern that defied competition. He was accepted as an oracle on all matters connected with anglers or angling and had it not been for an occurrence that happened lately he would have been yet. For some reason he had always refused to go out with any one else to seek for bass and pickerel; but when an intimate friend came and insisted on his going to Indian Ford with a small party of enthusiastic sportsmen, he finally yielded. On the way out he told of the many times that he had played immense trout from one end of the mill race to the other, only to have them escape; how he had speared sturgeon as they darted over the upper dam; and how he had killed California salmon with a hot gun in three mile creek; so that when the ground was reached all held the young man in considerable awe.

Tackle was immediately adjusted, each one looking after himself. About five minutes after the last line was out, the supposed expert began to dance around and switch his polo from side to side, at the same time excitedly informing the others that he had hooked a twenty-one-pound whale. Fifteen minutes of skillful playing failed to bring the monster to the surface, but in ten minutes more, science began to tell. A loud tug ended the struggle, and the victim lay stretched out on the ground. It was undoubtedly a "whopper," but at the instant held then and there, the unarmy decision was that instead of a whale, a water-soaked poplar sapling had been torn from its last resting place. A committee was appointed to ride the young man on a rail as a punishment for having tampered with the truth, but he saved himself by unseasonably flight.

Since then no one has been able to get anything beating the least resemblance to a fish story out of him. Occasionally he will begin and get about as far as, "Yes, I got more than all the rest of them put together. Some of them weighed over—then a look of remorse comes into his eyes and he steps short. The experience he has had in the matter, and any one who goes into that west side clothing store with conundrums about how many feet of cord wool a man can catch with one split bamboo pole, he must be prepared to dodge, for unless he does a speedy death awaits him.

To-morrow—Bargain day at the N. Y. Saving Store.

DIED.

BEETLE—In Waterson, N. J., aged 21 years, George L. Beetle, son of Colonel George L. Beetle, of Brooklyn.

Private funeral service at the residence of P. C. D. McKay, Patterson, Wednesday, May 5, at 2 o'clock.

BEETLE—At Salem, Ill., May 1, Thomas J. Beetle, of Chicago, Ill., in the 10th year of his age. Interment at Woodlawn, Sunday, May 16, 10 a. m.

Colonel G. L. Beetle, of the American Electrical Works, has sustained a severe personal loss in the death of his promising young son, George Beetle, Jr., who died suddenly and accidentally at Waterson, N. J., on April 25, and died a few days later. The young man had already evinced great talent in electrical science and invention, and had recently started in business. The news of his sudden death so affected his brother-in-law, Mr. R. J. Bowes, that the latter on hearing it died suddenly of heart disease. The remains of both are now at Woodlawn cemetery, N. Y. The interment and services will take place on May 15, inst. Colonel Beetle has in his double affliction the deepest sympathy of a very wide circle of friends. —Electrical World, May 15, 1895.

For years Mr. Beetle, Sr., was the manager of the telephone office in this city, and also the passenger agent of the Chicago and Northwestern railway company, and now has many friends and acquaintances here who will extend their sympathy in his sad affliction.

It is rumored that the supply of Dr. Bull's Cough Syrup is not equal to the demand. Druggists should prepare themselves for all emergencies as the people rely on them for this remedy.

No preparation could have made such a reputation as Satisfaction Oil has, without intrinsic merit of the highest order. It kills pain. Price 25 cts.

New Meat Market.

While in Monterey recently a Gazette reporter took occasion to look through the new building recently erected by Mr. J. M. Bray, for the corner of Western and Center avenues, on the premises formerly occupied by the McKay block. Mr. Bray has ex his on Western avenue and on the corner he has erected a spacious two story building, the lower portion of which he has converted to his own use and yesterday opened one of the cleanest and best arranged meat markets in the city. Everything is first class about the establishment, and the best that money could buy. He has one of Shopbell & Norris' large coolers which he has improved by making it double, so that meat may be kept several days without air getting at it. In the rear of the market proper is an office, and at the rear of the office his manufacturing apartment with sausage machine, lard press, sausage stuffer, and everything used about an establishment of this kind. Mr. Bray has secured the services of a capable butcher, Mr. Oscar Shelen, who will serve the patrons of the new firm in a perfectly satisfactory manner. Mr. Bray hopes by fair dealing and keeping as good a quality of stock as can be secured to receive a liberal share of the public patronage.

The upper portion of the building he has fitted up for living rooms, and are for rent. They will make very pleasant quarters. Mr. Bray has put in a public waiting trough in front of his building and will have his meat connected by telephone in a few days. This will be handy for persons living in that vicinity and the Gazette has nothing but the best of good wishes for the new proprietor.

THE COURTS.

A Verdict for the Plaintiff in the Case of Addy vs the City.

Other Matters Before the Circuit and Municipal Courts.

Yesterday afternoon soon after four o'clock the arguments in the case of Mrs. Barbara Addy against the city of Janesville were concluded and the case was given to the jury. The jury retired to agree on a verdict and about five o'clock they returned having found for the plaintiff in the sum of five hundred dollars. Ogden H. Fothergill and Wilson Lane appeared for Mrs. Addy, City Attorney Pierce representing the city.

A police process was entered in the case of the state against Frank Noonan. This was brought here on a change of venue from Deane county, Noonan being charged with rape.

This morning the case of the Chicago, Milwaukee & St. Paul railway against Ezra Goodrich was brought up. After the jury was drawn they were sent to Milton to view the ground. The suit is for trespass and grew out of the past pulling festival that took place at Milton last fall. It has been in progress most of the day but will be suspended to-night as many of the witnesses are Seven Day Baptists. In consequence of this the case of Stark against the city will come up to-morrow and will be finished before the other matter is again taken up.

MUNICIPAL COURT.

The trial of Albert Geiser which was going on all day yesterday was finished this afternoon. The jury went out about five hours and at fifteen minutes past three brought in a verdict of guilty. A motion for a new trial was made and the arguments will be heard some day next week.

Again in Trouble.

Ex-School Commissioner Madden seems determined to keep in hot water just as much as possible. He commenced by dumping a dead horse on a pasture near the Institute for the Blind. Complaint was made against him in the municipal court for this. When he was brought up for trial he pleaded guilty, sentence being deferred.

After that the ex-school commissioner, who had been occupying Dr. R. S. Malony's land as a pasture, was given notice to have his cattle removed, but he took no notice of it and another complaint was made against him in the municipal court, this time for malicious trespass. He was convicted but appealed the case to the circuit court, and with the greatest equanimity continued to tara Dr. Malony's property to his own use. When the stock broke through one of the fences and played havoc with an old German woman's garden Mr. Madden went to her and threatened her vengeance if the fence was not repaired so that his cattle could not be made sick from eating unripe vegetables. She suggested that he pay for the damage that the unruly animals had done; where
